We think that a healthy lifestyle should be affordable for everyone. We developed Natural Value because we felt that we could find and deliver premium quality natural and planet-friendly products to the marketplace in a more efficient and cost-effective manner. To that end, we've managed to streamline the distribution process and lower the cost of living well. Our goal is not to woo Wall Street with large profit margins. It is to reward your commitment to living responsibly with lower prices on natural products. We prefer a business model where everyone, including you, profits.
